

MIG-MAG/FLUX/BRAZING welding machine with removable wire feeder, fit for use in the industrial field. Flexibility of use with a wide range of materials such as steel, stainless steel, high strength steels and aluminium. Characteristics: very strong * numerous steps for regulation of arc voltage * regulation of spot welding time * two positions for reactance * thermostatic protection. Thanks to the extensions (optional) it is possible to increase the working range between wire feeder and power source up to 10 meters. Complete with MIG-MAG welding accessories.
